

RELACIONES EXTERIORES

CONSULADO GENERAL DE MÉXICO EN SAN DIEGO

Mexican nationals injured or dead while crossing the border in the San Diego-Tijuana region during Fiscal Years 2020-2022

- *The following statistics were generated by the Consulate General of Mexico in San Diego from 2020 through 2022, based on consular interviews under the Vienna Convention on Consular Relations of 1963 (Art. 36).*
- *This information is not exhaustive and includes cases that reached the Consulate mostly through consular notification by one of our partner agencies. It may include both ambulatory and long-term stays at the hospital.*
- *A summary of the injuries described in the charts below includes:*
 - *Bruises, fractures, lacerations or fissures in: arms, legs, hips, pelvis, feet, knees, back, ankles, coccyx, among other body parts.*
 - *Also reported were most serious injuries, such as: amputated arms or legs, finger mutilations, head fractures, brain damage, hearing loss, heart attack, or patients who had to be intubated.*
 - *Other non-wall related causes such as dehydration, snake bite, Covid-19, or hospitalizations due to pregnancy are also included in the chart.*
 - *Fatalities are also summarized in these charts.*
